On Demand Webinar - Trucking Under Cyberattack: How to Prepare, Respond, and Protect Your Business

INSIGHTSWEBINAR

MAY 15, 2025

Trucking companies have been subject to numerous cyberattacks. Join us for a webinar on **Cybersecurity Essentials**, led by experienced attorneys [Doug Marcello](#) from our Trucking and Commercial Transportation Group and [Ryan Givens](#) from our Information Privacy and Cybersecurity Group. Doug and Ryan will discuss real-world cyber threats affecting trucking companies, proactive steps to prevent attacks, and how to effectively respond. Learn how to protect your business, mitigate risks, and stay ahead of evolving cyber threats. Do not miss this opportunity to

strengthen your cybersecurity strategy!

What You Will Learn:

- How did we get here: Industry trends and recent case studies
- How to prepare and protect your business: Key strategies for you and your employees to safeguard against cyber attacks
- How to effectively respond: Activating your incident response plan

This webinar is ideal for company owners, fleet managers, safety and compliance officers, and industry professionals looking to strengthen their cybersecurity defenses. No company is too big or too small to benefit from learning how to protect itself. Don't wait for an attack to occur; learn how to protect your business now!
