Dr. Xin He is a medical consultant and board-certified endocrinologist. She specializes in diagnosing and managing complex endocrine disorders, including diabetes, thyroid conditions, parathyroid and bone disorders, and adrenal and pituitary diseases. Dr. He is an expert in clinical assessments and clear communication of complex medical concepts to legal professionals and lay audiences.

Dr. He is a Deputy Editor of Endocrinology and Diabetes at UpToDate, an encyclopedia of medical information used by healthcare professionals worldwide. She is also the founder of Thrive Endocrinology & Diabetes Care, a community clinic in Michigan. Her prior roles include the Director of Endocrinology at Signature Healthcare Brockton Hospital in Massachusetts, and Clinical Lecturer at the University of Michigan.

Dr. He earned her undergraduate degree in chemical engineering at MIT, followed by her medical degree and MBA from Yale University. She completed residency in internal medicine and fellowship in endocrinology at the University of Michigan.
