

Muhammad Farooq

AI & Automation Workflow Specialist

Email: mfarooq@saxtonstump.com

Phone: [\(484\) 328-8474](tel:(484)328-8474)

Education

Temple University, B.A.

Muhammad Farooq is an AI & Automation Workflow Specialist at Saxton & Stump, where he supports the firm's Applied AI function by building, testing, troubleshooting, and maintaining AI-enabled workflows and automation solutions. He works with attorneys and professional staff to translate practical needs into technical outcomes, ensuring solutions are reliable, attorney-friendly, and aligned with operational needs.

Previously, Muhammad served as an Application System Analyst at the Office of the Public Defender in Delaware County, Pennsylvania. He led the implementation of an enterprise case management system, automating workflows, building REST API integrations, and developing ETL pipelines that eliminated over 70% of manual user tasks across a 70+ person organization.
